

John Della Bosca MLC
Minister for Health
Minister for the Central Coast
Leader of the Government in the Legislative Council

**** Embargo: Saturday 9 May 2009 ****

***Caring Together*: Garling state-wide implementation teams**

Minister for Health, John Della Bosca, today announced high level teams to oversee the State Government's \$485 million *Caring Together: The Health Action Plan for NSW* - the most comprehensive reform in the history of the State's public hospital system.

"I would like to extend my thanks to all those front line staff who are joining local implementation teams and to the eminent members of the state teams who have now agreed to assist them with improving patient care and safety across NSW," the Minister said.

"To provide a transparent monitoring process for *Caring Together*, I have established an Independent Panel to regularly audit progress.

"The panel will be chaired by John Walsh, partner in the risk and value practice of PricewaterhouseCoopers. He has extensive experience as a consulting actuary in general insurance, accident compensation and the health industry.

"The panel includes clinicians as well as people with expertise in culture change, systems information, trend analysis, and governance and administration and will have its own independent secretariat.

"The panel will report on the progress of *Caring Together* each six months for the next three years.

"To assist NSW Health implement *Caring Together*, I have also established an independent Community and Clinicians Expert Advisory Council.

"The Council will provide advice directly to me and the Director-General on the initiatives underway and the work of the implementation teams at the local level.

"The Council will be chaired by Dr Michael Keating.

"Dr Keating is a former head of the Australian Public Service and other senior Commonwealth departments including Secretary of the Department of Prime Minister and Cabinet," Mr Della Bosca said.

"He is also a Visiting Fellow in the Economics Program at the Research School of Social Sciences in the Australian National University and is an Adjunct Professor in the Department of Politics and Public Policy at Griffith University.

"Also, a new sub-committee of Cabinet will oversee implementation of *Caring Together*. The reports of the Independent Panel will be prepared for the Minister and the Cabinet sub-committee," the Minister said.

.../2

“The focus of the *Caring Together* action plan is to build on the great tradition of the NSW health system where the care and treatment of the patient is at the centre of everything we do,” Mr Della Bosca said.

“As noted in the Garling Report , NSW has one of the better public health care systems in the world but we need to meet the challenges of the future, including the rising cost of health care and an ageing population.

“We need to ensure the record amount of funding our hospitals receive is used to provide the best possible care to as many people as possible.

“*Caring Together* is the result of extensive consultation across the State and from working closely with doctors, nurses and other health staff,” the Minister said.

“These initiatives are only the beginning of important changes to continue to deliver the best possible health care and to ensure on-going patient care and safety.

“While the NSW Government has a comprehensive plan to improve patient care and has supported 134 out of 139 Garling Report recommendations, the Opposition has come up with a flimsy six point plan which will divert \$300 million away from front line services.

“Barry O’Farrell and his shadow health spokesperson want to increase the number of Area Health Services from eight to 20.

“Their plan will result in more red tape, managers, more offices and fewer resources for clinicians and patients,” Mr Della Bosca said.

Independent Panel members

John Walsh – Chair

John Walsh is a partner in the risk and value practice of PricewaterhouseCoopers, which he joined in 1991. During the past decade, he has worked in a variety of roles as a consulting actuary in general insurance, accident compensation and the health industry. In 2001, he was named Actuary of the Year by the Institute of Actuaries of Australia in recognition of this work. His experience in these industries has led to much professional and committee work with government, discussing options for future health financing and delivery models.

Fr Gerald Arbuckle

Gerald Arbuckle is a graduate in social anthropology from Cambridge University, a former assistant-general of the Marist Fathers. He has a worldwide reputation for his application of cultural anthropological insights.

Fr Arbuckle is the co-founder and co-director of Re-founding and Pastoral Development Ministry which was established in 1990 as a flexible, international research and consultancy unit.

Dr Ruth Arnold

Dr Arnold is a leading Australian cardiologist and VMO at Orange Base Hospital. She is clinical lecturer at the School of Rural Health in the Faculty of Medicine at the University of Sydney, Chair of the Medical Staff Advisory Council in Orange and has a particular interest in ensuring residents of rural NSW have access to high quality medical services.

Professor Pat Brodie

Professor Brodie is Professor of Midwifery Practice Development and Research in Sydney South West Area Health Service. Professor Brodie has been involved in a wide range of midwifery practice, teaching, research and management roles that span over 25 years. Professor Brodie is the current national president of the Australian College of Midwives and in 2007 was awarded life membership of the college for her sustained service and contributions to the midwifery profession and maternity services in Australia.

Helen Dowling

Helen Dowling has been registered as a pharmacist since 1978 and was appointed in April 2008 as the Area Director of the Pharmacy within Hunter New England Health. During her career, Mrs Dowling has held the positions of Director of Pharmacy at John Hunter Hospital for over 12 years and for the Greater Newcastle sector for seven years. Mrs Dowling is the Deputy President of the Pharmacy Board of NSW, is on the Board of the Australian Council on Healthcare Standards and lectures in the University of Newcastle graduate entry Master of Pharmacy program. Mrs Dowling was Federal President of the Society of Hospital Pharmacists of Australia from 2000-02.

Professor Phillip Harris AM

Professor Phillip Harris is head of the Department of Cardiology at Royal Prince Alfred Hospital; Clinical Professor at the University of Sydney and Clinical Co-Director of the Cardiovascular Service at Sydney South West Area Health Service. Professor Harris has been Chair of the Patient Care Committee at Royal Prince Alfred Hospital for 13 years and was recognised in the Australia Day honours list 2009 for services to medicine in the field of cardiology.
